Subject: H.E. Davis Henry mine M/023/023

I talked with Tony Christopherson today 8/15/2005 at 1:30 PM and I told him when he faxed us a reclamation contract, the map was wrong as well as the legal description. This \$80,000 Traveler's casualty bond we received on 5/10/2005 is meant to be a Forest Service and State joint bond and needs to reflect such. I told him we don't need claim descriptions for legal descriptions but an accurate legal disturbance location down to the 1/4 1/4 location and two maps reflecting such with township, range and section shown on the maps, dates etc.. He sent us the wrong legal description and wrong maps(he sent claim locations for Levan Gypsum and maps of Levan that are totally unreadable) . He will call you tomorrow about all this. The bond file for Henry 1 and 2 is in the bottom drawer.
